## Technical Skills

**Programming Languages:** Java, JavaScript, SQL, Python (Basic), C++ (Basic)  
**Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Responsive Web Design  
**Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication, Full Stack Development  
**Databases:** MongoDB, SQL, Database Design  
**Tools & Platforms:** Git, GitHub, Firebase, Vercel, Render, Version Control  
**Core CS Concepts:** Data Structures & Algorithms, DBMS, Object-Oriented Programming (OOP), Computer Networking, Operating System

## Education

|                                                                                                   |                                               |
|---------------------------------------------------------------------------------------------------|-----------------------------------------------|
| <b>JSPM's Jayawantrao Sawant College of Engineering, Pune</b><br><i>B.E. Computer Engineering</i> | <b>Aug 2024 – Present</b><br><i>CGPA: 8.9</i> |
| <b>Fergusson College, Pune</b><br><i>Higher Secondary School (HSC)</i>                            | <b>July 2022 – May 2024</b><br><i>85.33%</i>  |
| <b>Ambika Vidyalaya, Tahakari</b><br><i>Secondary School (SSC)</i>                                | <b>June 2021 – May 2022</b><br><i>92.20%</i>  |

## Experience

|                                                       |                             |
|-------------------------------------------------------|-----------------------------|
| <b>Software Developer Intern</b><br><i>UptoSkills</i> | <b>Apr 2026 – July 2026</b> |
|-------------------------------------------------------|-----------------------------|

- Identified and fixed 15+ MERN platform bugs (form validation, REST API failures), decreasing client-side error frequency by 40%.
- Modernised dashboard UI via React.js, shortening page load times by 25%; inserted 8 courses + 40 modules, expanding educational content by 60%.
- Remedied critical pricing error, restoring accurate billing for 200+ active users; rectified database schema mismatch (UUID/INTEGER), erasing foreign key issues.
- Managed Git feature branches and executed 4+ peer code reviews, securing 100% conflict-free merges.

|                                                |                            |
|------------------------------------------------|----------------------------|
| <b>Web Development Intern</b><br><i>Kodbud</i> | <b>Apr 2026 – May 2026</b> |
|------------------------------------------------|----------------------------|

- Created responsive portfolio plus 8 web projects (Google clone, job form, image gallery) – finished all assignments before deadlines.
- Applied Flexbox/Grid layouts, reducing Cumulative Layout Shift (CLS) by 50%; published 3 static sites on Vercel, attaining 99% uptime and sub-second responses.
- Utilised Bootstrap 5 to craft an event page, trimming development effort by 40% relative to raw CSS.

## Projects

**Airbnb Clone | *MongoDB, Express.js, React.js, Node.js***

- Live Demo — GitHub – MERN stack booking platform featuring authentication, RESTful APIs, MongoDB design, and responsive UI.

**Simon Says Game | *HTML, CSS, JavaScript***

- GitHub – Interactive browser game employing DOM manipulation, event handling, and animated UI feedback.

**Spotify Clone | *HTML, CSS***

- GitHub – Pixel-perfect frontend recreation using Flexbox, CSS Grid, and media queries.

## Achievements & Certifications

- 200+ DSA problems solved** on LeetCode (Arrays, Linked Lists, Trees, Recursion, Binary Search)
- Cummins Scholarship Scholar** for academic excellence
- Ranked 10th among 160 students** in First Year Engineering
- Certifications:** Web Development (MERN) + DSA (Java) certified by Apna College — Complete Certificate Drive
